

COMFORTABLE UND PRECISE – **IDENTIUM®**

PRECISION IMPRESSION

KETTENBACHDENTAL

Simply intelligent

IDENTIUM® – THE EXCEPTIONAL MATERIAL COMBINATION!

A special generation of precision impression material

Combines the advantages of two proven impression materials (A-silicone and polyether) – Vinylsiloxanether®.

ONE-STEP IMPRESSION

- Double-mix impressions
- Monophase impressions

INDICATIONS

- Crowns and bridges
- Inlays and onlays
- Functional impressions
- Implants
- Combined restorations (fixation impressions)
- Pick-up impressions

Double-mix impression

Implant impression

IDENTIUM® – COMFORTABLE IN ALL DIMENSIONS

Removal from the mouth – as light as a feather

Identium® vs. Impregum™: **2.6 times** lower withdrawal forces

Ease of removal from the patient's mouth avoids distortions and ensures a stress-free impression taking process.
For your precision.

Advantages your patient will appreciate too

Fast final setting time

with sufficient processing time and short intraoral setting time

Sufficient intraoral working time makes it ideal for large cases.
For your precision.

Outstanding flowability

With the outstanding flowability of **Identium® Light**, you can reproduce even the narrowest gaps in great detail. **For your precision.**

- **Odorless and tasteless material** reduces gag reflex
- **Quick setting and easy removal from the mouth** for a relaxed and pleasant experience
- **Initially hydrophilic** – good performance even with residual moisture

COMFORTABLE AND PRECISE IMPRESSIONS

EASY REMOVAL FROM THE MOUTH

SHORT INTRAORAL SETTING TIME

INITIALLY HYDROPHILIC

Available in viscosities
Heavy, Medium and Light

Selectable setting times
regular (4:30 min.)
fast (3:30 min.)

Compatible with most common
mixing devices
